

## Watershed Stewards Program

Yr. 27 Site Sharing Matrix

To help provide all WSP Corpsmembers with a rich and varied experience, WSP strongly encourages each Placement Site to identify time during which their CMs may visit other sites. Site Sharing can also provide additional assistance to organizations when they are tackling large projects. Site Placement Site Mentors are very busy, CMs are encouraged to **contact the CMs placed at the site if they are interested in visiting**, either during the projects listed below, or at another time.

**DUE to COVID-19 some placement sites may not be able to host Corpsmembers to Site Share. Corpsmembers hosting must check with their Mentor to ensure they can host safely.**

### 2020 - 2021 Site Sharing Opportunities:

Placement Site	Project	Time of Year	Location	Notes
CDFW Yreka	Rotary Screw Trapping	End of Jan – June	Yreka, CA – Scott and Shasta Rivers	Identification and counting of out-migrating juvenile salmonids. Fish handling will be supervised by trained crew.
	Spawning surveys	Oct 15 <sup>th</sup> – Nov 31	Yreka	Will be paired with trained crew
USFS - Orleans	Fall Chinook Surveys	Oct-Dec	Orleans, CA	Walking surveys within misc. Klamath tributaries: Need waders, felt boots, rain gear, etc.
	Fall Chinook Survey Training	Oct	Oak Bottom River Access	No cost
	Whitewater Safety	Oct	Brannon Bar R.A.	No cost
	Fish Lake Kid's Fishing Derby	June 21 and 22	Fish Lake near Weitchpec, CA – 22 acre high mountain lake	Free camping & meals provided. Assist community members with local fishing tournament (Pre-K to 8th grade).
	Foot-hill yellow-legged frog surveys	May-Jun	Orleans, CA	Assist bios with assessment
	Adult Spring Chinook & Summer Steelhead Survey	July	Salmon River	Free-dive experience desire. Need wet suit, booties, felt boots, hood, gloves, mask, snorkel, etc.
	Fish Fair ED event	Mid April	Six Rivers National Forest	Assist with planning and student presentations at the KTJUSD environmental education event
Russian River Salmon and Steelhead Monitoring Program	Smolt Trapping	March-early June	Russian River	Especially Late May/Early June
Watershed Research and Training Center – Hayfork	Trespass cannabis grow-site reclamation	TBD	Hayfork, CA	Need to confirm with Greg Poulton directly.

## Watershed Stewards Program

Yr. 27 Site Sharing Matrix

	Steelhead Redd surveys	February-April	Hayfork, CA	Walking local streams. Need own waders and boots.
	Fall Chinook Spawner Surveys	November	Hyampom, CA	Need own inflatable kayak, PFD, waders, and boots
	Stream flow measurements	May-July	Hayfork, CA	Need waders and boots
BLM Arcata	School interpretive events	All year	Headwaters	Accompany Headwaters Ranger with various aged school kids to events in Headwaters.
	Salamander Coverboards	All year	Headwaters	Periodic salamander surveys
	Spawner Surveys	December through March	various	Flow and weather dependent
	Salmon Creek Sediment gauge	Winter/early Spring	Headwaters	Site visits flow and weather dependent
Fortuna CCC	Creek Days	Spring	Humboldt County	3 day environmental Ed event
	Instream Project Design	November-March	South Fork Eel River and surrounding watersheds	We don't always have a solid week of this kind of work, but check in to see what our plans are
CDFW Arcata	Fall Seining	October	Humboldt Bay Prairie Creek	Great opportunity to observe Young of Year Coho.
	Spawner Surveys	November -March	Humboldt Bay/ Redwood Creek	Great opportunity to observe spawning adults.
	Down-stream Migrant Trapping	April -June	Freshwater Creek Prairie Creek Redwood Creek	Great opportunity to observe Juvenile fish and pit tagging.
	Adult Trapping	December-March	Freshwater Creek	See adult salmonids up close.
CDFW CWPAP	Adult Carcass surveys	November, December, January	Northern Eel River Basin	Ideally, spawner survey training
	Stream Habitat Typing	June, July, and August	Northern Eel River Basin	Ideally, habitat typing training

## Watershed Stewards Program

Yr. 27 Site Sharing Matrix

	Fish relocation projects	June, July, August	Northern Eel River Basin	---
<b>Grassroots Ecology</b>	Water Quality Monitoring	2 <sup>nd</sup> Weekend of each month. Stevens Creek on Saturdays and San Francisquito Creek on Sundays.	San Francisquito Creek, Adobe Creek, Matadero Creek, Barron Creek, Stevens Creek	learn the basics of water quality monitoring, and lead community volunteers in this effort to track the health of local creeks
	Willow staking	October-November	San Francisquito Creek (Palo Alto)	no training or gear needed; we will supply tools and gloves
	Planting native plants	November - February	McClellan Ranch Preserve (Cupertino) Foothills Park (Palo Alto) San Francisquito (Palo Alto)	no training or gear needed; we will supply tools and gloves
	Restoration site maintenance- sheet mulching, removing invasive plants	October-August	Bay Area, CA	an opportunity to learn about the ecology of California, including invasive plants
<b>Point Reyes National Seashore</b>	Electrofishing surveys	June-August	Pine Gulch and Redwood Creeks	No prior training or equipment
	Spawner Surveys	November - February	Olema, Redwood, Pine Gulch Creeks	no prior training or equipment
	Stream Team Restoration Projects	November - March	Point Reyes National Seashore	These will be Saturday events with sites and locations determined by members. No training or equipment required
	Smolt Traps	March-May (7 days a week)	Olema and Redwood Creeks	No prior training or equipment
<b>USFWS Lodi</b>	Long term monitoring (trawling/seining)	Year-round	Delta wide	Need waders or deck boots. Will provide PFD. Availability dependent on schedule
<b>Marin Water Fisheries Monitoring Program</b>	Spawner Surveys	December-February	Lagunitas Creek	Previous spawner survey experience desired but not required.
	Smolt Surveys	Early April, Mid-late May	Pt. Reyes Station	Hosting is more difficult during the late-April/early-May peak Coho outmigration.
<b>SF Water Board</b>	Fine sediment sampling	July/Aug	Sonoma Creek, Pescadero Creek	---

## Watershed Stewards Program

Yr. 27 Site Sharing Matrix

NOAA Fisheries SWFSC	Coho salmon broodstock smolt (PIT) tagging	~December-January	Santa Cruz (Scott Creek)	---
	Spawning Ground Surveys	December-May	Santa Cruz (Scott Creek)	---
	Juvenile outmigrant trapping	March-May	Santa Cruz (Scott Creek)	---
CDFW Big Sur	Redd Surveys	December - May	Big Sur River	Need waders and boots
	Snorkel Surveys	May - August	Big Sur River and other coastal streams	Dry suit or wetsuit will be needed. We do have some extra dry suits to lend but sizes are limited
San Luis Obispo Steelhead Initiative	Redd Surveys	Jan-April on-going (specific dates depend on rain etc)	Chorro, SLO, Arroyo Grande Creeks	Redd Survey training would be a plus but not mandatory. Chest waders needed
	Snorkel Surveys	Mid-July	SLO Creeks	Wetsuit or dry suit-training a plus
Santa Barbara Steelhead Coop	Barrier Assessments	Year-Round	Santa Barbara County/Ventura County	Casey Horgan and Kyle Evans lead these surveys
	Redd Surveys	December - May	Ventura River/Conception Coast	Kyle Evans and Katie Carmondy lead these surveys
	Electrofishing Surveys	September-November	Conception Coast/Ventura River	Electrofishing, abundance estimation, and fish rescues typically occur in the late summer but can happen earlier in the year. Surveys led by Kyle Evans and Katie Carmody
	Snorkel Surveys	June - November	Ventura River/Conception Coast	Kyle Evans and Katie Carmondy lead these surveys
RCD of the Santa Monica Mountains	Snorkel surveys	Monthly	Topanga	Training provided
	Oak forest restoration	Two Sat a month	Topanga	No extra training needed
	Fish round up	November	Topanga	Training will be provided
	Bug week	November	Topanga	Training provided

## Watershed Stewards Program

Yr. 27 Site Sharing Matrix

### Potential Training Opportunities:

Placement Site	Training	Dates	Location	Notes
Grassroots Ecology	Rain garden/barrel installation	half day (weekend) - 2 events	multiple	---
Grassroots Ecology	Bank stabilization/stream survey	half day	multiple	learn how use willows for erosion control and how to measure channel geometry
CDFW Big Sur	DIDSON Camera Data Review Training	November 25 <sup>th</sup> and 26 <sup>th</sup>	CDFW Monterey	Please RSVP by calling (831) 649-7121
CDFW Yreka	Spawning Survey Training	Oct	Scott River near Fort Jones	Please rsvp 530-842-3109
CDFW Yreka	Rotary Screw Trap Training	End of January	Shasta River, Yreka, CA	Please RSVP at 530-842-2168
CDFW Arcata	Spawner Survey Training	Early November	Fortuna	Date TBD space may be limited.
CDFW Arcata	Pit Tagging	March	Mad River Hatchery	Date TBD space may be limited.
CDFW CWPAP	Stream Habitat typing	End of May	Fortuna	Space limited to those who will use the training
USFS - Orleans	Foot-hill yellow-legged Survey	TBD- May	Orleans, CA	No cost
